

Sensus Announces Fiscal Second Quarter 2011 Financial Results and Earnings Call

Solid Performance with Continued Margin Improvement

Raleigh, N.C. (December 17, 2010) – Sensus, a leading technology company providing energy and water utility customers worldwide with innovative conservation products and services, today announced financial results for the fiscal second quarter ended September 30, 2010.

Key Highlights for Fiscal Second Quarter 2011, year-over-year improvements

- **Total revenue of \$203 million, even; metrology business revenue up 21 percent;**
- **Gross profit margin of 28.2 percent, up 200 basis points; fifth consecutive quarter of year-over-year increase;**
- **R&D investment of 6.0 percent of net sales, up 70 basis points;**
- **Net loss of \$4 million, improvement of \$2 million;**
- **Adjusted EBITDA¹ of \$20 million, down 17 percent; and**
- **More than 8 million SmartPoint™ devices installed and communicating, to-date.**

"Smart grid activities have become a large portion of our overall business as we increase our portfolio of long-term smart grid contracts. We continue to make significant progress in achieving current contract milestones, while preparing for the ramp up of recent awards, such as PECO, Cobb Electric Membership Corporation, Southern Maryland Electric Cooperative and the Town of Cary. Our global water and gas metrology business continued to gain traction, building on the momentum of previous quarters. This is especially true of our global water business, which has rebounded in Europe and other geographies such as Egypt where we won a significant award for industrial water meters. Overall, I am very pleased with our positioning and outlook for the future, as evidenced by our continued improvement in year-over-year order growth," said Peter Mainz, Chief Executive Officer and President.

Fiscal second quarter revenue of \$203 million was even compared with fiscal second quarter 2010. Global water and gas metrology business revenue increased 21 percent year-over-year. North American market acceptance of iPERL™, our intelligent residential water management system, has continued to accelerate. Sales outside North America, especially in Europe, remained strong for the second consecutive quarter.

Gross profit margin was 28.2 percent, an increase of 200 basis points compared with fiscal second quarter 2010, and the fifth consecutive quarter of year-over-year growth. Investment in research and development increased to 6.0 percent of revenue from 5.3 percent in fiscal

second quarter 2010. Second quarter Adjusted EBITDA¹ was \$20 million, a decrease of 17 percent year-over-year. Consolidated net loss for fiscal second quarter 2011 was \$4 million, an improvement of \$2 million compared to fiscal second quarter 2010.

Fiscal second quarter backlog was \$106 million, flat year-over-year. The Company's book-to-bill ratio² was 1.05 to 1, compared to 1.00 for the fiscal second quarter 2010.

Fiscal First Quarter Earnings Conference Call

A conference call with analysts to discuss these results will be held on Tuesday, December 21, 2010 at 11:00 a.m. (EST). To access the conference call, please dial 866-609-9830 (domestic access) or 706-643-8338 (international access) and reference Conference ID Number: 32116536. It is recommended that analysts dial in five to ten minutes prior to the call to allow time for processing participant information. A replay of the call will be available until December 27, 2010, by dialing 800-642-1687 (domestic access) or 706-645-9291 (international access) and referencing Conference ID Number: 32116536.

About Sensus

Sensus leads in innovative and evolving technology solutions that enable intelligent use and conservation of critical energy and water resources. Sensus has led the discovery, development, and implementation of technologies for the energy and water industries for more than a century. Water, gas, and electric utility customers around the world benefit from the Company's open, flexible products and solutions to help them optimize their resources – today and tomorrow. Headquartered in Raleigh, N.C., USA, Sensus serves customers from locations throughout the Americas, Europe, Africa and Asia. For more information, visit www.sensus.com.

(1) Non-GAAP Measure

To enhance the comparability and usefulness of its financial information, the Company provides Adjusted EBITDA to describe more fully the results of its underlying business. Adjusted EBITDA is defined as consolidated earnings before interest expense, depreciation and amortization, and income taxes plus (a) restructuring costs, (b) management fees and (c) acquisition-related costs, and adjusted for other nonrecurring items.

Information regarding Adjusted EBITDA is provided because management considers this measure important in evaluating and understanding the Company's operating and financial performance. Management believes this measure provides useful information for investors in trending, analyzing and benchmarking the performance and value of the business. Internally, Adjusted EBITDA is used in our incentive compensation plans.

Management believes that Adjusted EBITDA provides meaningful supplemental information regarding our performance by adjusting for certain items that may not be indicative of our recurring core operating results. However, this metric for measuring the Company's financial results may be different from comparable information provided by other companies and should not be used as an alternative to the Company's operating and other financial measures as determined under U.S. GAAP.

A reconciliation of Adjusted EBITDA to consolidated net income is set out in the table below (in millions):

	Fiscal Quarter Ended September 30, 2010	Fiscal Quarter Ended September 30, 2009
Consolidated net income	\$(4.0)	\$(6.2)
Depreciation and amortization	11.7	11.0
Interest expense, net	11.1	11.7
Income tax provision	(1.0)	(2.5)
Restructuring costs	1.9	3.0
Management fees	0.2	0.7
Acquisition-related costs	0.3	0.7
Loss on debt extinguishment	—	5.9
Adjusted EBITDA	<u>\$20.2</u>	<u>\$24.3</u>

(2) Book-to-Bill

Book-to-bill is calculated as orders received during the quarter divided by net sales.
