

## **Sensus Highlights Technology and Data Analytics Solutions at ACE14**

*Solutions portfolio to improve operations and reduce costs showcased at booth #1105*

**RALEIGH, N.C.** (June 5, 2014) – [Sensus](#), a leading provider of clean technology solutions, will showcase technology and data analytics solutions to water utilities at booth #1105 at the [American Water Works Association's \(AWWA\) Annual Conference and Exhibition \(ACE14\)](#), June 8-12 in Boston.

Water utilities are implementing communications systems that carry an overwhelming amount of data from utility infrastructures. ACE14 attendees can visit the Sensus booth for demonstrations on [smart water networks](#), including Sensus [Logic™ data analytics](#) that turn data into knowledge. With the FlexNet™ communication network, metrology and data analytics, Sensus helps utilities worldwide detect leaks, increase efficiency and improve customer service.

To learn more about the benefits of smart water networks from water utilities and other industry experts, attendees are encouraged to hear the “Smart Water Networks: From AMR to AMI and Capitalizing on Long Term Benefits” panel discussion in room 204b on Tuesday, June 10 from 1:30-4:30 p.m.

Attendees are also invited to join the round table session, “Go Beyond AMI and Metering!” from 11 a.m. to noon on Monday, June 9 in room A, for an active discussion about deploying a communication network and capitalizing on benefits today, tomorrow and beyond.

For live updates from the ACE14, the premier conference for the water industry, follow Sensus on [Twitter](#).

### **About Sensus**

Sensus is a leading clean technology solutions company offering smart meters, communication systems, software and services for the electric, gas, and water industries. Sensus technology helps utilities drive operational efficiency and customer engagement with applications that include advanced meter reading, data acquisition, demand response, distribution automation, home area networking and outdoor lighting control. Customers worldwide trust the innovation, quality and reliability of Sensus solutions for the intelligent use and conservation of energy and water.
