

Concrete Pipe Adapters

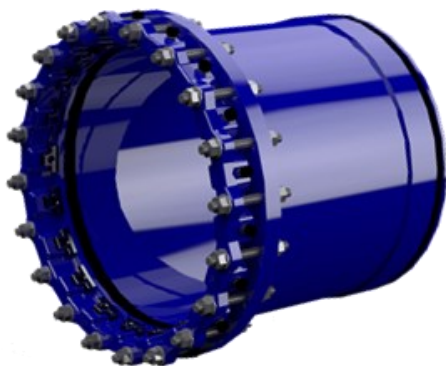

A Fabricated Smith-Blair Product

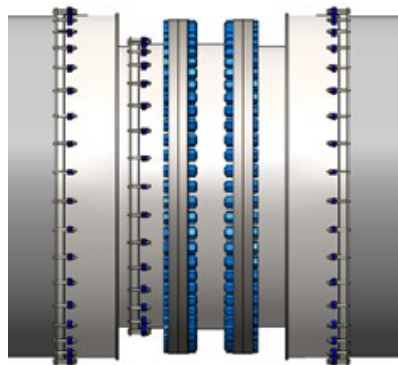

Smith-Blair produces a full range of adapters for concrete pipe that can be customized for your installation requirements.

Concrete Pipe Adapters A Fabricated Smith-Blair Product

Ductile To PCCP Spigot

Flange To Plain End RCP

Smith-Blair manufactures a complete line of adapters that are lighter, easier to install, and that usually ship in a fraction of the time mortar & masonry fittings.

Fittings such as couplings, both concentric and eccentric, flange adapters, tees, and tapping sleeves, are just some of the products Smith-Blair offers for CP, RCP, CCP, CSCP, and PCCP applications. This also includes adapters to connect concrete pipe to pipelines of different diameters and materials.

Smith-Blair's line of fittings for joining, tapping, capping, and repairing concrete pipe are all proudly manufactured in our Texarkana, AR facility.
